## *Message From The Director*

K.K. Public School is opened with this ideology to nourish and nurture the potential of individuals to the extent of perfection. Here we endeavour to spread the light of education all round. It is our sincere effort to make K.K. Public School with a difference and the school missioned to impart excellence in individuals and prepare world class citizens. We lay focus on all round development of a child where he/she will be physically strong and mentally healthy. We understand that Education is not just a process which creates an understanding of moral and ethical values, to guide and make our students morally upright citizens of the country.

in view of the changing scenario, a new order has emerged in our school an order that has introduced educational technology in various facets of the curriculum. Our school has leapt into the future with the promise of providing a foundation on which the students of today will prepare to meet the challenges of a complex and ever-changing world of tomorrow.

This prospectus is a true mirror of what the school has achieved and intends doing in the academic year to come. Through this prospectus we wish to assure the present and the would be parents of the school that the future of their children, irrespective of the age and class they are in, is in secure with us. We look forward to your unstinted support for the success of these ventures and help to make our vision a reality.

## *Message From The Principal*

Schools are the training grounds for the citizens of tomorrow. To ensure that Indians have a space in the global platform, we need to nurture and promote innovation in thinking. Children must be encouraged to think through a problem and come up with creative solutions and this must be ably supplemented with technological progress.

The future lies in the hands of individuals who are ready to learn all through their lives and school is an institution designed to provide learning spaces and learning environments for the teachings of Pupils under the direction of teachers. We have systems of formal education, which is compulsory. In these systems, students progress through a series of schools. But the first step decides future and that first step at K.K. Public School would certainly be apt and fruitful for your child. As our learning modules based on modern child pedagogy and recent trends and researches in child psychology which support the natural development of the child.

We at K.K. Public School, believe that every child is unique and gifted with multiple intelligences. To explore the uniqueness and innate born talents of your kids, we have designed the learning environment in such a way that no child will remain unexplored.

Hope the support from all round the corners.

## *Message From The School Manager*

*Education is not a destination but a journey in itself that turns an entity into a human being which is the biggest need of the hour.*

The core purpose of education is to provide children with a learning environment which brings out a best in them. We believe that every child is endowed with a unique set of attributes and abilities, which needs to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. We are inspired by these tenets in everything that we do at K.K. Public School.

We groom and nourish each child independently, for all required distinct attention. We build an atmosphere where the child explores multiple activities and experiences challenges to find his/her own strengths. We maintain a democratic and participative culture with mutual respect and appreciation for individual values.

The school, next to the family, takes special responsibility in equipping children with the right attitude and skills that would help them become winners. As a concerned parents, your search for an effective collaborator to attend your child's scholastic and versatile needs concludes at K.K. Public School.
